Product Safety	TR-AU-250a.1	Percentage of vehicle models rated by NCAP programs with an overall 5-star safety rating, by region	U.S. — 43% EU — 19% Latin America — 33% Australia and New Zealand — 83% China — 100%	SR	26, 90
	TR-AU-250a.2	Number of safety-related defect complaints, percentage investigated	FCA reviews 100% of NHTSA Vehicle Owner Questionnaire complaints filed on FCA vehicles. Through the Leave No Doubt program, FCA also investigates all submissions that have a potential vehicle safety concern.	SR	90
	TR-AU-250a.3	Number of vehicles recalled	77 recall campaigns involving 3,323,749 initial recall notices for FCA vehicles worldwide. Description on the largest recall campaigns provided in the Sustainability Report.	SR	90
Labor Practices	TR-AU-310a.1	Percentage of active workforce covered under collective bargaining agreements	At December 31, 2020, 87.1% of employees worldwide, including Sevel (Italy), were covered by collective bargaining agreements at any level, based on an average figure that covers a variety of situations in accordance with regulations and practices in the various countries.	AR SR	28-29 60
	TR-AU-310a.2	Number of work stoppages and total days idle	In 2020, the level of labor unrest and local labor action in Group companies was negligible (i.e., 8 hours per roughly 50 employees) and mostly related to local issues at individual plants.	SR	61

⁽¹⁾ Combined shipments include shipments by the FCA Group's consolidated subsidiaries and unconsolidated joint ventures.

⁽²⁾ Consolidated shipments only include shipments by the FCA Group's consolidated subsidiaries.

⁽³⁾ New vehicle sales represented sales of FCA vehicles primarily by dealers and distributors, or, directly by FCA in some cases, to retail customers and fleet customers. Sales included mass-market and luxury vehicles manufactured at FCA plants, as well as vehicles manufactured by joint ventures and third-party contract manufacturers and distributed under FCA brands. Sales figures excluded sales of vehicles that FCA contract manufactured for other OEMs. While vehicle sales were illustrative of FCA's competitive position and the demand for its vehicles, sales were not directly correlated to net revenues, cost of revenues or other measures of financial performance in any given period, as such results were primarily driven by vehicle shipments to dealers and distributors.
